Aspiring **Data Analyst** with a **BSc in Chemistry** and strong technical expertise in **SQL, Excel, Python, and Power BI**. Experienced in creating dashboards, cleaning and transforming data, and deriving insights to support business decisions. Strong communicator and problem-solver, eager to contribute to **Google's Data Analytics Apprenticeship** with analytical skills, business acumen, and a growth mindset.

PROJECTS

ELECTRICITY CONSUMPTION DASHBOARD — POWER BI

Developed an interactive dashboard to analyze electricity consumption across fiscal years.
Implemented slicers and filters for dynamic, time-based analysis.
Applied Power Query for **data cleaning and transformation**.
Created executive summary visuals and KPIs to track **usage patterns, trends, and performance metrics**.
Helped stakeholders make faster, data-driven decisions.
